SOUMYAJIT NAG

Full Stack Developer | Software Developer

Kolkata, West Bengal, India | 8250597771 | soumyajitnag2026@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

MCA graduate with hands-on experience in full-stack and Python-based application development. Skilled in React, TypeScript, Next.js, Node.js, Express.js, FastAPI, Python, MongoDB, and RESTful API development. Experienced in building AI-enabled healthcare applications, secure authentication workflows, role-based systems, database-driven applications, and responsive web interfaces. Seeking an entry-level Full Stack Developer or Software Developer role focused on building scalable and reliable applications.

TECHNICAL SKILLS

Programming: Python, JavaScript, TypeScript, HTML5, CSS3, JSON

Frontend: React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, FastAPI, RESTful API Development

Databases: MongoDB, SQL

Tools and Platforms: Git, GitHub, VS Code, Postman

Authentication & Security: JWT, Argon2 Password Hashing, Refresh Tokens, Role-Based Access Control (RBAC), Protected Routes, Input Validation

Development: API Integration, CRUD Operations, Database Design, File Uploads, Responsive Web Development

PROJECTS

MedBridge – Medicine Redistribution Platform **Live Demo**

Technologies: React, TypeScript, FastAPI, Python, MongoDB, JWT, Tailwind CSS

- Engineered a role-based full-stack platform for secure medicine donation, discovery, verification, and redistribution between donors and healthcare recipients.
- Developed REST APIs using FastAPI for authentication, medicine listings, claims, recipient verification, notifications, and administrative operations.
- Secured application access with JWT authentication, Argon2 password hashing, refresh-token rotation, RBAC, protected routes, and request validation.
- Built responsive React and TypeScript dashboards supporting donor inventory management, recipient discovery and claims, and administrative verification workflows.

MedSecure AI – Healthcare AI Platform **Live Demo**

Technologies: React, Next, Node, Express, MongoDB

- Developed RESTful backend services using Node.js and Express.js for authentication, user management, medical records, file uploads, and AI model integration.
- Integrated AI model services with backend APIs to process symptoms and medical documents and deliver structured results to the frontend.
- Designed MongoDB schemas and API workflows for user profiles, medical records, documents, and application data with input validation and secure data handling.
- Developed responsive React/Next.js dashboards and reusable UI components for healthcare workflows, forms, profile management, and API-driven interactions.

Personal Portfolio Website **Live Demo**

Technologies: HTML, CSS, JavaScript

- Launched a portfolio website with 4 core sections: projects, skills, education, and contact information.
- Created mobile-friendly layouts, clear navigation, and browser-compatible pages using semantic markup, styling rules, and JavaScript.
- Improved page structure, readability, and accessibility basics for recruiter review.

EDUCATION

Master of Computer Applications (MCA) - Narula Institute of Technology | Completed 2026 | CGPA: 7.69

Bachelor of Computer Applications (BCA) - University of Burdwan | Completed 2024 | Percentage: 65.44%

Higher Secondary - WBCHSE | Completed 2021 | Percentage: 70%

CERTIFICATIONS

• Oracle Cloud Infrastructure 2025 Certified Generative AI Professional - Oracle

• The Business Intelligence Analyst Course 2026 - Udemy | Instructor: 365 Careers | Completed: 11 May 2026

CAREER FOCUS

Junior Software Developer, Full Stack Developer, Python Developer

LANGUAGES

English: Professional | Hindi: Fluent | Bengali: Native
